

Roofline Budgeting Spreadsheet by <http://job-prices.co.uk>

Use this spreadsheet to budget for your roofline installation project.

While this list isn't exhaustive, we have covered the basics and there is space under "other" for you to add extra costs

Boards and fixings:

Fascia boards (sold in 5m length and sometimes 2.5m, variable height but usually 150-225mm, don't use 10mm thick capping boards, select 16mm thickness as a minimum)

Unvented soffit boards (5m length and variable widths but usually 250mm - 400mm)

Box end sections (1.5 m and for use at the corner of a gable-end)

Soffit joint trim (5m, you'll only need one of these)

Fascia joints

Fascia corner joints

65mm fixings

40mm fixings

30mm and 40mm wood screws

Adhesive (1x glue and 1xglue activator)

Vents and felt

Eaves felt tray (1.5m but allow 100mm overlap)

10mm eaves vents (1m)

Bird comb (1m but only used with rounded tiles to prevent bird entry)

Rainwater goods

Guttering length (4m)

Gutter support bracket (5 per 4m length of gutter)

Gutter joint (if your gutter length is greater than 4m)

Gutter corner

Outlets (1 per downpipe)

Rainwater downpipes (2.5m,4m and 5.5m lengths)

Bends/angles (2 per pipe at the top)

Downpipe brackets/clips (1 every 1.5m)

Connectors or shoes (used at ground level to connect to existing pipe or open drain head) (1 per pipe)

Misc

Tissue for cleaning

Cleaning fluid

Timber baton (3m per 10 metres of roofline)

Waste disposal and delivery fees

Skip or trip to waste disposal yard

Delivery fees (often free with minimum spend)

Labour
